This is an email regarding planning for Stretton on Dunsmore. Having been a resident of Stretton for nearly 30 years i find it hard to believe we are the only village with no new development. i like many others have had children grow up but cant afford to stay in the village because of no new affordable housing. i like many are very angry the planning gets stopped by a few selfish residents every time. the village has an older generation and needs new younger blood or the village will die. we have seen the local pub struggle and i understand the local shop is struggling. please. please lets have some new developments to help the village not for the few retirees.

Thank you. [REDACTED]  
Resident of Stretton.
