I would like to challenge the proposal to change the land at Ansty from green belt to employment land.

I refer to chapter 13 of the National Planning Policy Framework (NPPF) Which, trying to protect green belt land, states that it can only be redesignated in exceptional circumstances, which these obviously are not. It way exceeds the proposed amount of hectares for employment land per year. Rugby has no unemployment issues so the promise of all those jobs should be disregarded.

The roads are already congested with traffic from two motorways and only a single carriageway leading from their junctions into Ansty would create even more disruption.

We will no longer have the green barrier separating us from Coventry.

This proposal, if allowed, will have far reaching effects, not only engulfing Ansty, but stretching to Brinkow.

Yours
