To Whom It May Concern,

With apologies for the short notice (I hope I'm not too late), I'd like to register the formal opposition of my husband and I to the proposed extensive development near Ansty. It would have an extremely negative impact on local residents, and more importantly, it will destroy part of the local Green Belt, which is there to preserve the countryside and allow communities to maintain their identities.

With all the concern expressed constantly for the environmental impact of more or less every area of our lives, it doesn't seem right to be developing on protected countryside at this time- a very limited resource if ever these was one. I know that there has to be a balance in all these things, but for those who will be most impacted it is a clear, "No, thank you."

Many thanks for taking the time to read this and add it with other opinions.
