In view of the enormous scale of the developments around Dunchurch and the disastrous results on our 1000 year old village I believe the levy should be significantly increased and the resultant cash used to benefit our village. There are many opportunities to help compensate the village and it is clear from the enthusiasm of the developers to exploit that they stand to make huge profits from the land around our village and can be persuaded to increase the levy to the benefit of the Communities so badly affected by their developments
