Dear Mr Holly

Re: Draft CIL Charging Schedule

Thank you for your notification received on the 7th August 2023 in respect of the above consultation.

The Coal Authority is a non-departmental public body sponsored by the Department for Energy Security and Net Zero. As a statutory consultee, The Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

Our records indicate that within the Rugby borough area there are recorded coal mining features present at surface and shallow depth including; mine entries, shallow coal workings and reported surface hazards. These features may pose a potential risk to surface stability and public safety.

It is noted however that this current consultation relates to a draft CIL Charging Schedule and I can confirm that the Planning team at the Coal Authority has no specific comments to make on this document.

Yours sincerely
