Decision	Approve
Reason	<p>Financial contributions and planning obligations are sought to mitigate against the impacts of a development and make otherwise unacceptable development acceptable.</p> <p>Regulation 122 of the Community Infrastructure Levy (CIL) Regulations 2010 (as amended) makes it clear that these obligations should only be sought where they are: (a) necessary to make the development acceptable in planning terms; (b) directly related to the development; and (c) fairly and reasonably related in scale and kind to the development.</p>

	<p>If a requested planning obligation does not comply with all of these tests then it is not possible for the Council to require this.</p> <p>In relation to the planning application, the Council has made and received a number of requests for planning obligations. It is considered that all of these requests meet the necessary tests and are therefore CIL compliant.</p> <p>In order to secure these requests as planning obligations it is necessary to enter into a s.106 agreement.</p>
